PROFILE INFO

Passionate and detail-oriented Web Developer with strong expertise in HTML, CSS, JavaScript, TypeScript, and Python, along with hands-on experience in building modern web applications and teaching technical skills.

Actively involved in tech education and mentoring, with real-world experience managing a local training institute and guiding students through practical, industry-focused learning. Known for clear Urdu explanations, strong communication skills, and a disciplined teaching style.

EXPERIENCE

- Teacher at YouTube** 2025
 - Teaching web development concepts with a strong focus on clarity and fundamentals
 - Explaining technical topics in simple Urdu, making them accessible to beginners
 - Guiding students through real-world projects and best practices
- MANAGE THE INSTITUTE** 2025
 - Managed the institute's Facebook Marketing & Social Content Strategy

WHY ME?

- That's Why...
- Real development + teaching experience
- Strong communication skills with Urdu-friendly explanations
- Passionate about tech education in underserved communities
- Already mentoring students at a local training center
- Disciplined, consistent, and growth-focused mindset
